the Right Place.

# FIND

## Global Find

**Global Find** is a product developed in Web environment that answers the need of **identifying solutions for the location of companies** in the continental national territory, aiming to assist Industrial and Logistics Companies in search of a new location.

Based in a GIS (Geographic Information Systems) platform, the **Global Find** identifies location alternatives in industrial or logistic parks with available lots.

Through the website [www.globalparques.pt](http://www.globalparques.pt), **Global Find** enables free search on a map or the identification of location alternatives following the selection of infrastructural, demographic and socio-economic criteria, previously defined and made available to the users.

Only a *click* away and you may gain access directly on the map to the characterization and description of several interesting items on industrial or logistic contextualization such as Ports and Harbour Terminals, Airports, Logistic Platforms, amongst others.

With free access via internet, **Global Find** enables you to find the best location for your investment based on the following search criteria:

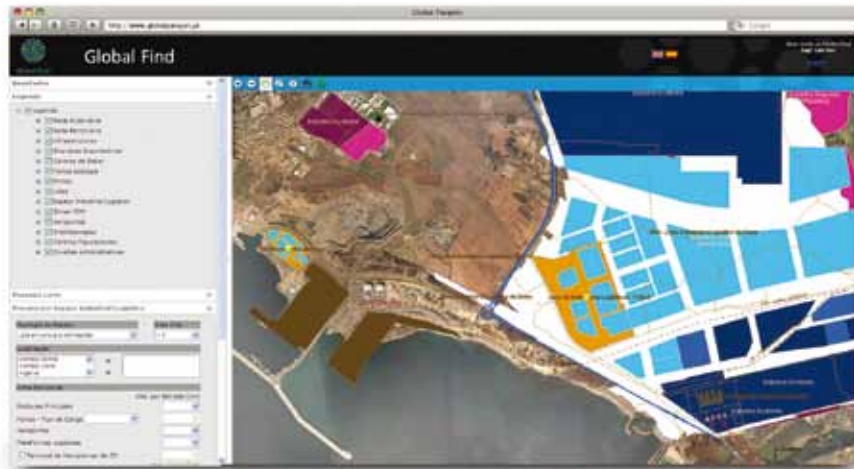

- Typology of Space
- Localization Nut III
- Area
- Infrastructures (main roads, ports, airports, logistic platforms)
- Economic Activities
- Business Centres and Knowledge Centres
- Demography
- Education Level

At **Global Find** you can carry out:

- Multiple criteria search
- Map navigation
- Search through keywords
- The Print of Reports - Socio-Economic, Lot and Comparative Context

In order to access these features, you should enter [www.globalparques.pt](http://www.globalparques.pt), "Global Services", and register free of charge at **Global Find**, after which you will receive a password by email.

## Consulting Services

The Global Force Consulting services made available for the Investors are carried out by experts of **aicep Global Parques** who provide personalized services of selection and support to the choice of the location for their investment.

The available services begin with the listing of requisites submitted by the client, search of suitable space, and promotion of contacts with the entity managing the spaces, always combined with the interpretation of comparative analysis reports.
